SOFTWARE DEVELOPER

I have created various Web Apps and Android Apps when developing these I have implemented complex algorithm and scale the product according to the clients need. Additionally I have integrated an API to both web and mobile app which leads me to become a better developer and understand the underlying conflict. With almost 2 years of experience in developing complex application I have been exposed to many problems so I can guaranteed that I will fullfil my job if you hire me as a developer.

SKILLS

Javascript | HTML | CSS | React | Tailwind | NextJS

Java (JavaFX, JavaME, JavaSE) | Firebase | RESTful API | MySQL | PostgreSQL | SQLite
